KMFDM

Homo sapiens, a dying species
Poor sick dumb numb feeding feces
Half-eaten starved beaten multiplying lying cheating
Lean mean, unclean ammo for the gun machine Cannon fodder driven by fear
Last class raw mass victims of the puppeteer
Human driftwood, lepers pariah
Suicide bombers for the new messiah Everybody do your part
Hope is life and fire to the heart Rattle your chains
Never back down
Blow your brains
Stand your ground Plutocratic rule and power
Rich fat, small balls final hour
Big last gulp, end of reign
Flush dictators down the drain Everybody do your part
Hope is life and fire to the heart Rattle your chains
Never back down
Everybody blow your brains
Stand your ground Rattle your chains
Never back down
Everybody blow your brains
Stand your ground
And fight hard
