

# All Down to Me

Peter Frampton

Looking all around me  
Looking for directions that come on me  
Rolling down another road that I don't know  
Waiting for you to wake me up I can see no way out  
It's so dark and no one can hear me shout  
Living in a new world , I don't know  
Asking time to please stand by All down to me  
All down to me  
All up to me  
All down to me I want to dance around it  
I just go dancing with it  
I only know that I only know the first step  
And I can see it's alright  
Following your footprints  
While you give me all so many subtle hints  
Looking up I can see your little light And it's all down to me  
All down to me  
All down to me  
All up to me  
It's all down to me  
I have been hurt, I've been cursed  
But I'm at peace I've found a remedy  
And it's all up to me (Guitar Solo)  
All down to me  
All down to me  
All up to me  
All down to me
