Silly Song

Sorry Gilberto

Here's a song you can sing along too
For when I've gone away
It's a silly tune I wrote for you
And you can sing it everyday
I don't want to leave you
I don't want to leave you tonight
I don't want to leave you
I don't want to leave you behind
I don't want to leave you tonight
So if you're down and I'm not around
And the days seem far too long
Well, I'll be there if you're ever scared
You can hear me sing along
I don't want to leave you
I don't want to leave you tonight
I don't want to leave you
I don't want to leave you behind
I don't want to leave you tonight
And I know it's hard but life's a bit like that
When it pulls you down and stabs you in the back
I know it's hard but we'll get through this, I know
I didn't know you'd be gone for so long
I didn't know you'd be gone for so long
I didn't know you'd be gone for so long
I didn't know you'd be gone for so long
I don't want to leave you
I don't want to leave you tonight
I don't want to leave you
I don't want to leave you tonight
I don't want to leave you
I don't want to leave you behind
I don't want to leave you
I don't want to leave you tonight
I don't want to leave you
I don't want to leave you behind
I don't want to leave you tonight
