In A Close Encounter

Soilwork

Taken by suprise
in an early starshined night
with my thoughts I blur
into their minds of knowledgeI glanze updon the obscure date
well, I see a million of lights
flashing inside the weakminded soul
so intelligent
I see the gift to my inner dreams
ascript to solve the HIV exposedThen they flew
so fast into the other world
then they flew.....so fast intoTaken by suprise
in an early starshined night
with my thoughts I blur
into their minds of knowledge
into their minds of knowledgeI glanze updon the obscure date
well, I see a million of lights
I glanze updon the obscure date
well, I see a million of lightsI glanze updon the obscure date
