

Lay Up Under Me

Beyonce Knowles

Don't you worry 'bout a club
Just come and lay up under me tonight I was out shopping thinking of something I should get you
'Cause I been gone so many weeks damn I miss you
Don't wanna do nothin' more than just stare at your face
And let you know I'm happy you're my best friend
Part of this fortune boy I owe you
For being always here to talk to
Taking time out starting with the day for my babe We're gonna hit the floor at home
We'll let the candles be our light tonight
And Imma DJ all of your songs
You ain't gotta worry 'bout a club
Just come lay up under me tonight Boy, if you just call I'm on my way
When it comes to my baby I bring my best
It's just you and me all night
Don't worry 'bout no club
Just lay up under me tonight Tonight, tonight, tonight
Tonight, tonight, tonight
Tonight, tonight, tonight
Don't worry 'bout a club
Just come lay up under me Let's pop a bottle of that vintage that I bought you
I model sexy pictures right on top of you
10 years together still feels like we're making love for the first time
Like I'm in high school sneaking with my boyfriend Part of this fortune boy I owe you
For being always there to talk to
Taking time out starting with the day for my babe We're gonna hit the floor at home
We'll let the candles be our light tonight
Boy Imma DJ all of your songs
You ain't gotta worry 'bout a club
Just lay up under me tonight We're gonna hit the floor at home
We'll let the candles be our light tonight
Boy Imma DJ all of your songs
You ain't gotta worry 'bout a club
Just come and lay up under me tonight Boy if you just call I'm on my way
When it comes to my baby I bring my best
I just wanna party tonight
'Cause its obvious to see that you're where I wanna be Just let me look at you
Ooh you look so sexy boy I want a taste
You already know which way
When I groove with you

Ooh you feel so good boy you're my favorite place
Just come and lay under me We're gonna hit the floor at home
We'll let the candles be our light tonight
Imma DJ all of your songs
You ain't gotta worry 'bout no club
Just lay up under me
2xTonight, tonight, tonight,
Tonight, tonight, tonight
Tonight, tonight, tonight
You ain't gotta worry 'bout a club
Just lay up under me tonight
