

# Spotlight

## Ne-yo

Ah..it's so lovely  
Heavyweights y'all a fool for this track right here  
It's your friendly neighborhood Ne-Yo  
And on behalf of myself and Compound Entertainment  
I wanna send this one out to all my superstars out there  
Ladies you know who you are, let's go  
Cats start stalking soon as she start walking  
She's a cause for celebration (but you don't hear me now)  
If they talking, believe that she's the topic  
Of the fellas conversation  
Everything about her exudes (ah,ah)  
Tell you all that she gotta do (ah,ah)  
With them pretty little eyes look at you (ah,ah)  
And you gon do what she wants you to (ah,ah)  
Kinda like she walk around with a  
Spotlight, (ay) everything about her is  
So right,(ay) baby you're a superstar (yup,yup)  
Said baby you're a superstar (yup,yup)  
Girl look at you shining  
Look at you shining, look, look at you shining girl  
Look at you shining, look, look at you shining girl  
Look at you shining, look, look at you shining girl  
Look at you shining, look, look at you shining girl  
Way too often, she catch me gawking  
Little crazy curvy little frame (but you don't hear me now)  
Girl what's poppin, think that you should hop in  
Baby tell me your name 'cause  
Everything about you exudes (ah,ah)  
  
Tell you all that you gotta do (ah,ah)  
Show me how you make that thing move (ah,ah)  
And I'mma do what you want me to(ah,ah)  
Kinda like she walk around with a  
Spotlight, (ay) everything about her is  
So right, (ay) baby you're a superstar (yup,yup)  
Said baby you're a superstar (yup,yup)  
Girl look at you shining  
Look at you shining, look, look at you shining girl  
Look at you shining, look, look at you shining girl

Look at you shining, look, look at you shining girl  
Look at you shining, look, look at you shining girl  
(So many things I want to say to you oh girl)  
Baby is it possible to share the spotlight with you  
Let me know (ooh ooh)  
(So many things I want to say to you oh girl)  
Kissing you from head to toe  
Give it to you like you never had before  
(tell me if its cool) oh let it breathe  
Kinda like she walk around with a  
Spotlight, (ay) everything about her is  
So right,(ay) baby you're a superstar (yup,yup)  
Said baby you're a superstar (yup,yup)  
Girl look at you shining  
Look at you shining, look, look at you shining girl  
Look at you shining, look, look at you shining girl  
Look at you shining, look, look at you shining girl  
Look at you shining, look, look at you shining girl
