The Dancer

Elliot Minor

I'll tap my foot,I'll anticipate
Every second's a longer wait
And I'm just one step away
Muscles ceasing, I clench my seat
I'm sory if I seem weak,but it'll pass in timeDance for me now
Swirl yourself around
Lift off the groundI've lost all hearing, it's filtered out
I focus better when there's no sound, now there's no sound!
There's no feeling, it's barely real
Illusion come reign over me, reign over meDance for me now
Swirl yourself around
Lift off the ground, ground, groundDance for me now
Swirl yourself around
Lift off the groundDance for me now
Swirl yourself around
Lift off the groundDance for me now
Swirl yourself around
Lift off the groundDance for me now
Swirl yourself around
Lift off the groundLift off the ground and dance for me nowDance for me now
Swirl yourself around
Lift off the groundSwirl yourself around
Lift off the ground
