Together

Magdalen Graal

When I look behind me
There's a closed door
This time it's leaving me alone
I don't wont to cry
My darling good bye
When the night arrives I think of you

You're in my mind you're in my dreams
Where are those days I can't believe
You're not here so far away from me
Your voice is all I need
Your breath my skin
Your touch my dreams
Together

Where are you I don't know
And my heart aches
Those days can you tell me
Where are they?
And where is your joy your tender hand?
My life alone here in a waste land

You're in my mind you're in my dreams
Where are those days? I can't believe
You're not here so far away from me
Your voice is all I need
Your breath my skin
Your touch my dreams
Together

You're in my mind you're in my dreams
Where are those days? I can't believe
You're not here so far away from me
Your voice is all I need
Your breath my skin
Your touch my dreams
Together together together

You're in my mind you're in my dreams
Where are those days? I can't believe

You're not here so far away from me
Your voice is all I need
Your breath my skin
Your touch my dreams
Together
