

# Dictators Of Cruelty

## Destruction

They protect our souls from war and pain  
Don't fuck with them - nothin' will remain  
They fight the good fight for their world peace  
Save our Western Culture from unknown enemies  
Military power pushed by the industries  
Rain forest? Who cares about some fuckin' trees  
This is for all our safety - this ain't no joke  
They surely guard us - as long as they are broke[Bridge]  
Land of the free - the land of decay  
Amazing grace - kneel down and pray  
Stars and lies - flag of pride  
Ku Klux Klan at Disneyland[Chorus]  
Race wars in a faked world  
Hiding the truth there's no excuse  
Dictators of cruelty  
Dictators of cruelty  
Fairytale and legends are the backbone of a land  
Where controversial losers can be president  
Nothin' like it seems on this Earth full of disgrace  
Build your own opinion and see their ugly face! [Bridge] [Chorus] [Bridge] [Chorus] Dictators of cruelty!
