When I See You

El Debarge

Ra ra ra ra, oh
Hoo, hu.

Just a thought of you, being with someone else,
That will never do, want you for myself,
Girl, what we've been through,
Baby, me and you, guess we never knew who turned out to be who.

'cause when I see you, I just die, girl
I can't explain and my heart stops
Without you, in my life, girl, the feeling takes me away,
When, I see you, I come alive, girl
I never wanted to wish somebody,
New, in my life girl,
And that's the way I feel when I see you, you, you.

No more loneliness, no more emptiness,
Tell I love you strong, let's hold on to this,
I will cherish you, let me shelter you,
And I promise you, all your dreams will come true.

'cause when I see you, I just die, girl
I can't explain and my heart stops
Without you, in my life, girl, the feeling takes me away,
When, I see you, I come alive, girl
I never wanted to wish somebody,
New, in my life girl,
And that's the way that I feel when I see you girl.

I never felt this much about anything,
Girl you know you got me good.. you got me going insane,
I see traces of your face, in the strangest of places,
It doesn't matter what I do.

'cause when I see you, I just die, girl
I can't explain and my heart stops
Without you, in my life, girl, the feeling takes me away,
When, I see you, I come alive, girl
I never wanted to wish somebody,
New, in my life girl,

And that's the way I feel when I see you, you, you.

It's funny how all this time, I know that we've been through,
Gets better, and better, I love you forever,
Baby you never know who turns out to be you,
September, I'll always remember,
All this time I know what we've been through,
Yeah, gets better and better, I love you forever
Baby I never thought it turn,
After all we've been through, I'm still in love with you.
When I see you, girl, I just die, girl,
'cause when I see you, girl I just die, girl,
When I see you, I just die, girl.
