

Flying Together

Darkseed

You love the world I own
Where all our hate is blown
 Away to distant spheres
I call our real life Flying together
 Flying togehter
 Flying together
Into my dreamy world We'll walk among the clips of fire
 The heat to feel
 We'll wander all night long
In lands of dreams Flying together
 Flying togehter
 Flying together
Into my dreamy world Please fly together
 Please fly with me
 We'll fly together
Into my dream We'll see magic summer rain
 Your skin to cool
I'll show you hidden spheres
 I, the mental traveller
