

Mountain Top

Bedouin Soundclash

It all came down today
There's not much left to say
We sit alone and stare
Hotel rooms in nowhere
But we're climbing back up to the mountain top
Climbing to that mountain top
Call it what you want,
Call it all punk rock
Up on the mountain top
Baby baby baby say "don't you stop"
Up on the mountain top
Call it what you want,
Call it all punk rock
Up on that mountain top.
There's rain in Tokyo
Somewhere we lost that soul
Some things get lost and soaked
And some things might just get old
But we're climbing back up to the mountain top
Climbing to the mountain top
Call it what you want,
Call it all punk rock
Up on the mountain top
Baby baby baby say "don't you stop"
Climbing up that mountain top
Call it what you want,
Call it all punk rock
Up on that mountain top
And now comes the horizon
Hey!
So we're climbing back up to the mountain top
Climbing up that mountain top
Call it what you want,
Call it all punk rock
Up on that mountain top.
Baby baby baby say "don't you stop"
Climbing up that mountain top
Call it what you want,
Call it all punk rock

Up on that mountain top
Climbing up that mountain top
Up on that mountain top
Climbing up that mountain top
Climbing up that mountain top
