# Ave End

## Lacrimas Profundere

Let us to your heart now
Let us to your soul
Deeper, deeper, deeper
But it's over and out
Oh, let me finish itAnd when it all ends
I touch you
And when it all ends
I give you allBe mine and be higher
And swallow all you need
And we will die for usFor that time it is gone
I hate you my dear
Faster, faster, faster
Shall I beg for you not
But what else can I do?And when it all ends
I touch you
And when it all ends
I give you allBe mine and be higher
And swallow all you need
And we will die for usI have you in my heart now
Let a tear for our end
Sooner, sooner, sooner
Let us beg for us and stop
