

# Obsession

## Army of Lovers

Obsession I could wait night and day, sigh your name when I pray  
In my heart night and day till you come my way  
I could wait night and day be the sky blue or gray  
In my heart night and day for your love to stay Obsession You got that magic in your eyes shining wherever you  
go  
To a lovers paradise, trust every sign when I'm so  
Close to where my heart belongs like in heaven I could wait night and day, sigh your name when I pray  
In my heart night and day till you come my way  
I could wait night and day be the sky blue or gray  
In my heart night and day for your love to stay Obsession I can't help falling into a trance, losing my senses I  
know  
You're my hero in advance, trust every sign when I'm so  
Close to where my heart belongs like in heaven I could wait night and day, sigh your name when I pray  
In my heart night and day till you come my way  
I could wait night and day be the sky blue or gray  
In my heart night and day for your love to stay Obsession, obsession, obsession There ain't no promises, ain't no  
commitments  
But how cruel can love be, how cruel to a broken heart like mine  
There ain't no right, there ain't no wrong  
But as long as hope survives, I'll stay alive I could wait night and day, sigh your name when I pray  
In my heart night and day till you come my way  
I could wait night and day be the sky blue or gray  
In my heart night and day for your love to stay I could wait night and day, sigh your name when I pray  
In my heart night and day till you come my way  
I could wait night and day be the sky blue or gray  
In my heart night and day for your love to stay I could wait night and day, sigh your name when I pray  
In my heart night and day till you come my way  
I could wait night and day be the sky blue or gray  
In my heart night and day for your love to stay I could wait night and day, sigh your name when I pray  
In my heart night and day till you come my way
