First Day Of The Rest Of Our Lives

Mxpx

Not a lot right now makes sense to me and it won't go quietly
Not a lot right now makes sense to me and it won't sit patiently
I'm gonna chase my dreams and catch up to them
I'm gonna find you some how, some way, somewhere, some day
First day of the rest of our lives, I miss you already
Last time I saw that look in your eyes, I miss you already
First day of the rest of our lives, I miss you already
Last time I saw that look in your eyes, I miss you already
I don't wanna spend the rest of my life alone, where's life taking me?
I don't wanna spend the rest of my life alone, always traveling
I'm gonna chase my dreams and catch up to them
I'm gonna find you some how, some way, somewhere, some day
First day of the rest of our lives, I miss you already
Last time I saw that look in your eyes, I miss you already
First day of the rest of our lives, I miss you already
Last time I saw that look in your eyes, I miss you already
I wanna love my job, I wanna love my life
But most of all I wanna fall in love
First day of the rest of our lives, I miss you already
Last time I saw that look in your eyes, I miss you already
First day of the rest of our lives, I miss you already
Last time I saw that look in your eyes, I miss you already
First day of the rest of our lives, I miss you already
Last time I saw that look in your eyes, I miss you already
First day of the rest of our lives, I miss you already
Last time I saw that look in your eyes, I miss you already
