

Move On

Santana

Move on, there's no time to waste complaining

Move on, can't you feel your heart expanding

Every time I turn around

Ignorance one step behind

So come on and try again

You can make it if you try

Move on, there's no time for hesitation

Move on, all you need is motivation

Every time I turn around

Ignorance one step behind

So come on and try again

You can make it if you try

Keep on moving on

Move on, there's no time to waste complaining

Move on, all you need is motivation

Every time I turn around

Ignorance one step behind

So come on and try again

You can make it if you try

Keep on moving

Got to keep on trying

Every step of the way

Got to keep on trying

Every step of the way

Got to keep on trying

Every step of the way

Got to keep on trying

Every step of the way
