United Kids

CIV

We can see the problems
But what'd you do to solve them
Talking without action
What's the difference
Something to believe in
Following your lead
It's time to pick a side not sit on a fence
It won't cut it

You wanna talk about the kids united
Take a swing at the upper hand
You wanna talk about the kids united
And this world it won't just listen

What's the situation
An un-united nation
Working for a slave wage
What would you pay?
Kicking down a closed door
Something you could fight for
It's time to pull up your head off the floor
We're standing up
You can't keep us down
We'll stick tight
You can't push us around
There's no limit to what we can do
We're gonna take it
To a level where they've got to tell the truth

It's gonna take our strength to lift it
This weight can't hold us down
Our pack solid and bonded
Open minded pushing forward
Making changes, our own choices
