

# Elation

## Swingin' Utters

I'm just a living abortion  
Trying to live my life, trying to make some fun  
Walking down the street, people think I'm dead  
Gonna eat their brain with a piece of bread  
Elation  
Elation  
I'm just a walking abortion  
Walking down the street, people think I'm dead  
Momma told me to beware of the man  
Who comes a knockin with a vacuum in his hand  
Elation  
Elation  
I'm just looking for some action  
I'll be your dog you'll catch your death  
I'll get you in your bed  
I'm just a walking infection  
Stumbling around with a bullet in my head
