

Somebody Put Something in My Drink

Ramones

Somebody
Somebody put something in my drink
Somebody
Another night out on the street
Stopping for my usual seat, oh, bartender, please
Vodka and tonic's my favorite drink
I don't like anything colored pink that just stinks, it's not for me
It feels like somebody put something
Somebody put something in my drink
Somebody put something
Somebody put something
Blurred vision and dirty thoughts, feel out of place, very distraught
Feel something coming on, yeah, kick the jukebox, slam the floor
Drink, drink, drink, drink some more
I can't think, hey, what's in this drink?
Somebody put something
Somebody put something in my drink
Somebody put something
Somebody put something in my drink
Somebody put something
Somebody put something in my drink
Somebody put something
Somebody put something in my drink
Somebody put something in my drink
In my drink, in my drink, in my drink
So you think it's funny, a college prank
Goin' insane for something to drink, feel a little dry
Oh, I couldn't care what you think of me
'Cause somebody put something in my drink
I can't think, hey dude, give me a drink
It feels like somebody put something
Somebody put something in my drink
Somebody put something
Somebody put something in my drink
Somebody put something
Somebody put something in my drink
Somebody put something
Somebody put something in my drink
Something in my drink
