I Fell In Love

Carlene Carter

Hey, I hit town without a clue
Minding my business like I always do
Just my luck I ran smack into youAnd I never could've known it would be like this
You got the kind of charm that I can't resist
I figure what's the harm in a little bitty kiss or twoBut I fell in love
(Whatcha wanna do that for)
Oh, I fell in love
(Whatcha wanna do that for)
I fell in loveTook me by surprise, put me on the floor
Right between the eyes with a two by four
Just a little taste and
I fell in loveI was doing fine out on my own
Never sitting home by the telephone
I couldn't complain that I didn't have much to doI was a two fisted woman looking for a fight
Had a boy on my left, a boy on the right
But you burned me up like a chicken at a barbecueBut I fell in love
(Whatcha wanna do that for)
I fell in love
(Whatcha wanna do that for)
Oh, I fell in loveDidn't see it coming into view
I was overwhelmed and overdue
I ain't gonna sweat it
I fell in loveBut I fell in love
(Whatcha wanna do that for)
I fell in love
(Whatcha wanna do that for)
Oh, I fell in loveCaught me on the blind side unaware
I may be a fool but I don't care
I never knew what hit me
I fell in loveOh, I fell in love
(Whatcha wanna do that for)
I fell in love
(Whatcha wanna do that for)
Oh, I fell in loveTrying to visualize what's wrong with me
Got me hypnotized, I cannot see
Boy, you really got me
I fell in love, I fell in love
I fell in love, oh, I fell in love
