## **Molton**

## Vanilla Ice

Something is taking over My brain is like a motor Release me from these binds Help me free my mind Everyone's so disguised Cant find truth in their eyes Living this masquerade Everyone's so afraid Chorus: To die is all we got 6 feet down our bodies rot As our souls get released Next our carcass lays deceased Can't get it outta my head--8x This is vituality Someone Explain to me I keep on seeing illusions

Of living institutions Chorus:

To die is all we got
6 feet down our bodies rot
As our souls get released
Next our carcass lays deceased
Can't get it outta my head--8x
Dont wake me I'm feelin fine
I'm outta here in another time
I'm more alive even after I'm dead
Remember me with every breath

I am a holy soldier I am a holy soldier I am a holy soldier I am a holy soldier
