Anathema

I found you in the dark
Don't leave me here
Don't leave me staring at the sun (staring at the sun)
Love is so strong, that it hurts (love is so strong that it hurts) I dreamed of you in the dark
You spoke to me from afar
What you mean to me is clear
And I'll always be near
I found you in the dark (2x)
Don't leave me here
Don't leave me staring at the sun(staring at the sun)
Love is so strong, that it hurts (love is so strong that it hurts)
Look into your eyes
See my life's defined
Look into your eyes
See a heart of mine
