

All Secrets Known

Alice in Chains

Hope, a new beginning
Time, time to start living
Like just before we die There's no going back
To the place we started from Hurts, falling through fingers
Trust, trust in the feeling
There's something left inside There's no going back
To the place we started from
All secrets known Calm, all wounds are healing
Strong, truth is worth saving
I want to feel alive There's no going back
To the place we started from
All secrets known
