Stardust

New Politics

You were the moon, I was the wave
Pulled me out, pushed me away
It's how we danced
Isn't it amazing?
Hold me close, let me go
I said that faith is all I know
And yes I lied
Because the whiskey made meI was just enough but you need everything
It's all a blur we're clearly fading babyWhy couldn't I make you want to leave the world behind?
Our ship is stuck in a bottle
Let's break the glass tonight
I'll be your after glow, your sweetness and your light
I'll be the chemical that helps you sleep at night
We're stardust, you and IWhat's poison now, was perfect then
Sirens screaming out again
Baby it ain't right
But isn't it amazing?
A bleeding heart blooming in the shade
A midnight watch, I'm up for days
I need a sign but girl the skies so hazyNow I'm just enough but you need everything
It's all a blur we're clearly fading babyYou can call
You can fall on me
We're stardust, you and I
Like stardust tonight...
Our ship's stuck in a bottle
You're stuck on my mind
