

This Time Around

Paul Brandt

This time around
Is the only time you get
Like an hourglass
That can't never be turned again
Once it's done
All you are is who you've been
So Sink or swim
I'm diving in
This time aroundThis time around
Gonna love with all my heart
Do my best
Not to finish where I start
No regrets
Set my course among the stars
No looking back
No point in that
This time aroundEach waking moment's what you make it
Don't let a minute pass you by
This is the only chance so take it
All you have to do is spread your wings and fly
This time around
This time aroundAll I ever want to do
Is hold on loosely
To everything but You
And at the end
After all that we've been through
I'll know in my soul
That I had it all
This time around
