

# Selective Memory

## Eels

If I lay my head down  
I will see you in my dream  
Wearing that polka dot dress  
And sitting by the stream  
Leaning in to hear you  
You will whisper in my ear  
And everything I need to know  
I finally hear I wish I could remember  
But my selective memory  
Won't let me When I was a baby we would  
Go out to the park  
And sit out in the fountain  
Splashing 'round until it's dark  
The days go on forever  
When you only know that much  
And everything you need to know  
Is answered with one touch I wish I could remember  
But my selective memory  
Won't let me
