

# Faster (feat. Colin Munroe)

## Slum Village

Hold your breath  
yeah yeah  
(YAH)  
woahh ohh ohhh ohhh oh  
yeah  
im feelin like im whippin in a Porsche girl  
you all up in my thoughts  
its simple & reinforced  
love that love that that love  
so much that we should back up  
you never feel it til it happens  
then it happens  
cause i guaranteed your life is like math subtract it from your past  
& the math you think its like fast  
Talladega honey moon up in vegas sharin paper  
cross my fingers hopin we dont break up  
now we made it through the basics  
we seen it in an instant  
girl id love to see your ass naked  
we should stay connected  
every second record is a blessin  
girl you got me smilin so F it  
i take it there i take it as a blessin  
i use it as a weapon  
i rhyme they should use it as a reference  
when people stay stick together we forever its embedded  
& everytime we go somewhere we always leave a presence, the essence hold your breath  
(dont let this) run away  
(its moving) faster (yeah) faster (yeah) faster  
(whoa whoa whoa oh)  
dont let go (dont let go)  
night & day  
(its moving) faster(faster) faster (faster) faster from mix to the intense  
the second i hope you smell the incense  
entice the moment of innocence  
this how we came together  
for better bond suited on how to break hearts  
separated then secluded  
desire was a overwhelming conclusion

those things of passion created a guard for the delusion  
it makes sense  
in a mutual choice the muse & states of simple bliss forever we still here  
& in a intense climax the moment a miss & the moment of passion is intense enough to commence  
at last we in the depths of orgasm  
the experience brought us this far  
now we out fast  
take the time when expand emotions recommence to the intense  
the second is innocence  
guess the time when expand emotions to the 8 tenths  
a second of innocence, innocencehold your breath  
(dont let this) run away  
(its moving) faster faster faster  
(whoa whoa whoa whoa)  
dont let go (dont let go)  
night & day  
(its moving) faster faster fasteryeah its like you million miles away  
& i cant take that  
lets get that crib, sittin where that, hate that  
you need that, feelin that young girls dream of the italy  
gotta lay her boat up streamlove  
that paris in the springtime  
wakiki when i, when im lost in your eyes i see me in ya  
it feels brand new  
just listen, ya mans true  
what u wishin i cant do  
its my mission,  
i plan to in addition stay thru the good the bad  
whether the rain or shine  
your remain is mine  
body & brains, ya fine  
yeah you all that & then some  
what a perfect place to begin from  
& baby if you let yourself go  
maybe we could go  
tell you this is all i know  
& we could do dinner, dance slow,  
a broad way show  
tell you this is all i know..hold your breath  
(dont let this) run away  
(its moving) faster faster faster  
dont let go (dont let go)  
night & day  
(its moving) faster faster fasterits moving (faster) moving (faster) moving (faster)  
its moving (faster) moving (faster) moving (faster)
