

Play Another Good Old Feel Good Song

Smokey River Boys

Verse Number One:

Like it or not....I can't stop the clock....it's seven a.m.....

No coffee again....in my old coffee can....

What a way...for the day to begin...

I'm running late...on a blocked interstate....

God only knows for how long....

There's nothing to do...till I can get through....

I'm gonna turn my radio on....THE CHORUS:

Play another....good old feel good song...

One that anyone can sing along....

When everything I do is doing me wrong...

Play another...good old feel good song....Turn-A-Round

Verse Number Two:

A dark country lane...after the game....

When music falls on my ear...

It takes me back to the night I met you...

That was my favorite year...

Don't need a hard sell...or a new magic spell....

To make me smile...

It doesn't take much....just a quick touch...

On my radio dial...THE CHORUS:

Play another....good old feel good song...

One that anyone can sing along....

When everything I do is doing me wrong...

Play another...good old feel good song....
