One Step Closer

Hear'say

I thought you were giving me
All talk and no action
Well, the groove I lay on you
Would you give to all back to me?
Now, you got the kinda thing
Gonna show you my reaction
And the moves I play on you
When I'm givin' you back for free
It's just one drop in the ocean
It's just one drop in the sea, oh yeah
It's one step nearer devotion
It's one step closer to me
What you've got is what I need
It's got my mind running over time
What you've got is what I need
Just take your time, you're what I want
Hey boy, if you're wantin' me
Better get yourself together
If you stop close to me
Gotta do what I gotta do
Now, you make me feel so right
With a wetter satisfaction
Give it up and get it on
'Cos the hustle is overdue
It's just one drop in the ocean
It's just one drop in the sea, oh yeah
It's one step nearer devotion
It's one step closer to me
What you've got is what I need
It's got my mind running over time
What you've got is what I need
Just take your time, you're what I want
It's gonna take some time
I've got you on my mind
It's what I need
It's gonna take some time
It's what I need
I've got you on my mind
What you've got is what I need

It's got my mind runnin' over time
What you've got is what I need
Just take your time
What you've got is what I need
It's got my mind runnin' over time
What you've got is what I need
Just take your time
What you've got is what I need
It's got my mind runnin' over time
What you've got is what I need
Just take your time
