Everything

Zug Izland

You've got your blind indecisions
Of all the things they say
This is your life this time
Live it how you may
Give one man powers to kill
And one man hands to heal
Left one man suffering
All I want is everything
All I want is, all I want is
All I want is everything
They've got the door wide open
Won't you walk on in
We're going for a freak ride
Won't you take a spin
Okay, this will be the last chance
So now make it right
If someone tries to stop you
Stand your ground and fight
Give one man powers to kill
And one man hands to heal
Left one man suffering
All I want is everything
All I want is, all I want is
All I want is everything
Everything, everything
Everything, everything
Everything, everything
Everything, everything
I want, everything, everything
Give one man powers to kill
And one man hands to heal
Give one man everything
Still other's left suffering
Now the thrill of living
Stay on the right path
When death is calling
You can't take it all back
Can't take it all back
Can't take it all back

Give one man powers to kill
And one man hands to heal
Left one man suffering
All I want is everything
Give one man powers to kill
And one man hands to heal
Left one man suffering
All I want is everything
All I want, all I want
All I want is everything
All I want, all I want
All I want is everything, yeah
