Next Big Joyride

Fabulous Disaster

Hey! What can I say?
Something's on my mind like every other day
Hey! You slow down, I can see you're headed for a breakdown
Go! Go! Take another pill and a real big swig to forget about me
Don't you know by now, you're under my skin like six feet under ground..Hey yeah, oh yeah, Let's go, the Next Big Joyride [x4]Now I'm half asleep, now I'm awake
Thought it was a daydream
I'm so horrified 'cause now you see the real me, deep inside
Then I say it's black, she says it's white
I say it's day, she says alright
It's time to run, it's time to hide, get ready for the next big joyrideHey yeah, Oh yeah, let's go, the next big Joyride [x4]
