

Winterbreak (TiÅ«sto's Deep House Remix)

Muna

[Verse 1]

You say I'd best get going because it's getting late
And I say, why don't I walk you home because it's on the way
But the last time that we made love, you left in tears
So this time you're wondering how to leave it here
And I haven't seen you since last winter break
And I know that I broke your heart
But oh he's the smart one, oh, he's so intelligent
You must know that I took it hard[Chorus]

Oh, baby I think we both know
This is a love that we won't get right
Still if you said that you wanted
I know I'll always have one more try
Oh, baby, I think we both know
This is a love that we won't get right
Still if you said that you wanted
I know I'll always have one more try[Verse 2]

You pull that face like here we go again
So I pull a flask out the back of my jeans
And then you take a pull
And in my mind we're in my bed
And I'm pulling
Your sweater wrapped over your head
And I haven't seen you since last winter break
And I know that you hate how that went
But oh he's a smart one, oh, he's so intelligent
You must know what's happening[Chorus]

Oh, baby I think we both know
This is a love that we won't get right
Still if you said that you wanted
I know I'll always have one more try
Oh, baby, I think we both know
This is a love that we won't get right
Still if you said that you wanted
I know I'll always have one more try[Bridge]

Oh it's magnetic, isn't it?
The sense of something underneath the surface
When you're laying on thin ice
Just a little bit masochistic

Attentive to the lips as
The parting of your lips, the ache in your eyes
But I think I'm gonna kiss you[Chorus]
All this while we both know
This is a love that we won't get right
Still if you said that you wanted
I know I'll always have one more try
Oh, baby, I think we both know
This is a love that we won't get right
Still if you said that you wanted
I know I'll always have one more try
