## Fever

## Cascada

I am not a beauty queen, traveling in a Limousine I'm a girl but don't call me baby Who the fuck is VIP? Live a life in luxury I don't care so just call me crazyCan you give it out? Don't stop, just take it to the limit Watch me boy, it's spinning around this time Hush, hush, running to the night, feel aliveI just can't get enough when I'm with you 'Cause your fever makes me feel so good Turn it up, boy, you make your move See I'm burning but it feels so goodCan't get enough when I'm with you You got fever but it feels so good Turn it up, baby, make your move Keep me burning 'cause it feels so goodI don't need no superman, trying to tell me who I am Know it all's a driving me crazy Nothing ever is for sure, I can't take this anymore All I want is yes or no, babyCan you give it out? Don't stop, just take it to the limit Watch me boy, it's spinning around this time Hush, hush, running to the night, feel alivel just can't get enough when I'm with you 'Cause your fever makes me feel so good Turn it up, boy, you make your move See I'm burning but it feels so goodCan't get enough when I'm with you You got fever but it feels so good Turn it up, baby, make your move Keep me burning 'cause it feels so goodIt's so hot, do it, do it real good Can't stop, do it, do it real good It's so hot, do it, do it real good Can't stop, do it, do it real goodIt's so hot, do it, do it real good Baby, you have fever Can't stop, do it, do it real good Baby, you got fever It's so hot, do it, do it real good Baby, you got fever Can't stopI just can't get enough when I'm with you 'Cause your fever makes me feel good Turn it up, boy, you make your move See I'm burning but it feels so goodCan't get enough when I'm with you You got fever but it feels so good Turn it up, baby, make your move

Keep me burning 'cause it feels so good
