

# Do It for You, Do It for Us

**Ben Harper**

Talk to your name across my heart  
Every letter bold and dark  
So that every time I breathe  
You can know your bringing me relief I have stopped those hollow howls of lust  
I do it for you, I do it for us  
The trinity of honor, love and trust  
I do it for you, do it for us A mirror in the hand  
Is worth ten from afar  
Come closer now so I can feel you breathe  
And see for who you truly are I have stopped those hollow howls of lust  
Do it for you, do it for us  
The sunset burns a flaming ash to dust  
I do it for you, I do it for us, I do it for you I have stopped those hollow howls of lust  
I do it for you, do it for us  
The trinity of honor, love and trust  
I do it for you, do it for us, do it for you
