Body Parts

Roro

RoRo Productions, let's get it popping, body parts, let's get it poppin, RoRo, woke up screaming body parts, body parts I wanna see, I wanna see those body parts, I wanna see those body parts, I wanna see those body parts.....
It late night, I thought I turned the lights off, looked out the window police got they sirens on, they look suspicious like they're looking for a crime scene, they're knocking at my door, who the hell they looking for, body parts. What they think I'm catching bodies, I'm sweating heavy, realized it was just a dream. Body parts, body parts, I wanna see, body parts..

You're looking at my body parts, quit looking at my body parts, you're looking at my body parts, quit looking at my body parts, you're looking at my body parts, quit looking at my body parts..
Grabbed my phone, I might as well stay awake. Called my boo, I hope he got his ringer on.. Come on boo umma need you to answer, come answer that cell phone. I've been dreaming, dreaming about it all night , dreaming about them body parts,so come on boo don't don't break my heart, just just let me see them body parts, body parts, body parts, I wanna see them body parts,
Body parts, body parts, I wanna see them body parts, body parts body parts, I wanna see them body parts
You're looking at my body parts, quit looking at my body parts, you're looking at my body parts, quit looking at my body parts, you're looking at my body parts, quit looking at my body parts, you're looking at my body parts, quit looking at my body parts.....
