

# Stop The Rain

## Silent Circle

Stop the rain in the night in my heart deep inside.Cold as ice with a heart full of lies  
you're goin' your own way.

I wait on the side in the heat of the nightit is hard to stay.

Every day  
every night

we're bound up in a hard fight.

Joy and tears side by side

that's our life.Stop the rain in the night in my heart deep inside.

Hold me  
I need you -

Stop the rain in the night  
our love can't sunrive.

It's now or never

stop the rain in the night.You and me - it's a tragedy with an open end.

Take a chance for a new romance  
we're cryin' for love.

Every day  
every night  
we're bound up in a hard fight.

Joy and tears side by side

that's our lifeStop the rain in the night in my heartdeep inside. . . .Every day

every night

we're bound up in a hard fight.

Joy and tears side by side  
that's our life.

Stop the rain in the night in my heart deep inside.

Hold me

I need you - stop the rain in the night.

Stop the rain m the night. (3x)
