Same Old Feeling

38 Special

Just one kiss we both remember
How that first love made our hearts
So crazy when
All those summer nights together
When every touch between us
Brought a lightnin' flash in the darkBaby won't you wait, just a minute now
Before you go, turnin' away?
Don't you know
What the two of us might just throw away?'Cause we got tonight
And the same old feeling again
Don't say no
Though it's a game we never win
We always ran against the windThe love we made yesterday
Leads every move we make
And it takes us back to
The same old feeling againI don't care
Where you've been without me
No lookin' back no questions asked
Oh, it's in the past
You know good love don't give up easy
And nothing can change it what love is meant to lastAnd we got the night
And the same old feeling again
Don't say no
Though it's a game we never win
We always ran against the windLove we made yesterday
Leads every move we make
And it takes us back to
The same old feelin'
AgainBaby, won't you wait, just a minute now
Before you go turnin' away?
Don't you know what the two of us
Might just throw away?
So let's just float awayInto the night
And that same old feelin' again
Don't say no
Though it's a game we never win
We always ran against the windThe love we made yesterday
Leads every move we make
And it takes us back to

The same old feelin' againSame old feelin' again
Same old feelin' again
Ooh, the same old feelin' again
