

# Dj Envy Interlude

## DMX

Let me tell you about DMX  
DMX is probably, one of the artists that saved Def Jam back in the day  
when Def Jam was going down  
and-and he saved Def Jam with the, with the cruddy raps  
But let me tell you how generous DMX was (Okay)  
This is when I was producing  
DMX flew me down to uh, L.A. (uh-huh) when he was shooting a movie  
and uh, we did about four or five tracks  
but the reason I knew DMX was so big  
is in the middle of the movie he stopped filming  
and was like "Envy, let's go, uhh, fly helicopters." (ha ha ha)  
And we went to the store, we bought remote control helicopters  
and started flying helicopters in the middle of the set!
