

# If It Kills Me (Casa Nova Sessions)

Jason Mraz

Hello, tell me you know  
Yeah, you figured me out  
Something gave it away  
And it would be such a beautiful moment  
To see the look on your face  
To know that I know that you know now And baby that's a case of my wishful thinking  
You know nothing  
Cause you and I  
Why, we go carrying on for hours, on and  
We get along much better  
Than you and your boyfriend Well all I really wanna do is love you  
A kind much closer than friends use  
But I still can't say it after all we've been through  
And all I really want from you is to feel me  
As the feeling inside keeps building  
And I will find a way to you if it kills me  
If it kills me Well how long, can I go on like this,  
Wishing to kiss you,  
Before I rightly explode?  
This double life I lead isn't healthy for me  
In fact it makes me nervous  
If I get caught I could be risking it all Baby there's a lot that I miss  
In case I'm wrong Well all I really wanna do is love you  
A kind much closer than friends use  
But I still can't say it after all we've been through  
And all I really want from you is to feel me  
As the feeling inside keeps building  
And I will find a way to you if it kills me  
If it kills me If I should be so bold  
I'd ask you to hold my heart in your hand  
Tell you from the start how I've longed to be your man  
But I never said a word  
I guess I'm gonna miss my chance again Well all I really wanna do is love you  
A kind much closer than friends use  
But I still can't say it after all we've been through  
And all I really want from you is to feel me  
As the feeling inside keeps building  
And I will find a way to you if it kills me  
If it kills me If it kills me

I think it might kill me And all I really want from you is to feel me

It's a feeling inside that keeps building

And I will find a way to you if it kills me

If it kills me

If it kills me

It might kill me
