Never Leave Northfield

For All Those Sleeping

This is the fight for your life
You can't give in
So wake up son
You've got a war to win
Hey kid don't make a mistake
Remember that heroes aren't made
They're born that way
This town is ours so don't make a sound
And if you're lucky I may save this last round
Go make my day
I never forget a face
And I'm sure yours could haunt me on for days
We're outlaws
You can believe what they say
We'll leave your city in flames
There's a bounty on my head
But a smile on my face
Because we're outlaws
We'll take this song to our graves
This town is ours so don't make a sound
But if you're feeling lucky I'll save two last rounds
Take it all the way
This is the one risk to take
Don't be forgotten
(Chorus)
Through these eyes I see no fear
Live for dying
(Chorus)
This is the fight for your life
You can't give in so wake up son
You've got a war to win
