Dissipate

Sam Garrett

I just wanna be close to you
You're the sunshine on my face
And I wanted to hold you
A little longer than I did today

Guess I'll keep on pretending
That one day I'll see you smile
And I'll keep on erasing
You from my little mind

But I've seen fire and I've seen grace
You make the world a special place
And I'm still tired but I'm awake
All things must dissapate

And I'll sit quiet and meditate
Maybe on another day
And I've acquired a brand new fate
All things must dissapate my awe

It's gonna dissapate my awe

I'm wondering how much longer
I'm gonna have to walk in these brown shoes
The skies are making me ponder
If it's a dream or if it's really true

I make my home on the surface
But underneath her shadow's creeping in
And now he's got in the palace
Guess I'm just a little late

But I've seen fire and I've seen grace
You make the world a special place
And I'm still tired but I'm awake
All things must dissapate

And I'll sit quiet and meditate
Maybe on another day
And I've acquired a brand new fate

All things are gonna dissapate my awe

It's gonna dissapate my awe

I've seen fire and I've seen grace
You make the world a special place
And I'm still tired but I'm awake
All things are gonna dissapate

And I'll sit quiet and meditate
Maybe on another day
And I've acquired a brand new fate
All things are gonna dissapate my awe

It's gonna dissapate my awe
It's gonna dissapate my awe
It's gonna dissapate my awe

Om Nama Shivaya
My fire
Om Nama Shivaya
My fire
Om Nama Shivaya
My fire
Om Nama Shivaya
My fire

I just wanna be close to you
You're the sunshine on my face
And I wanted to hold you
A little longer than I did today
