

# Redemption City

## Corrosion of Conformity

Lost in a dream, high and wide  
Whatever price to keep it by your side  
The steps to the top are very steep  
King of the hill when all are fast asleepBut I'm stuck in between  
And I know you know what I mean  
What a pity!  
Redemption CityBroken hearts toast another round  
And drink to the lost, there's not a soul to be found  
Lonely boy says, come what may  
I hate to see it, always end this wayBut I'm stuck in between  
And I know you know what I mean  
What a pity!  
Redemption CitySimple words remind me  
Cluttered room, it haunts me  
Come back yesterdayThe soul is tired and you wanna go home  
And close the curtain on everything, you've known  
But the curtain is high, wide and long  
And kills the dream, so we sing this simple song, yeahStuck in between  
And I know you know what I mean  
What a pity!  
Redemption City  
What a pity!
