Inhumanity

Fair Weather Friends

If you look them in the eyes
You will see the desperation
If you're looking at your screen
You can see the devastationSee the hate
There's fire in their eyes
The fire's burning bright
On TV
City's burning bright
The city's burning bright at nightWhat we don't like to see
Such inhumanity
We are sitting comfortably
And safe in home security
No, we don't want to see
Such inhumanityHow does it feel to be safe
When the war is not far away from you
What's going on inside your head
When you have to see the awful truthSee the truth
The torture in their eyes
These people tell no lies
Stolen youth
A child locked in a stare
It's lost inside, it's endless stareNo, we don't want to see
Such inhumanity
We are sitting comfortably
And safe in home security
No, we don't want to see
Such inhumanityIf you look inside their eyes
You will see the desperation
If you're looking at your screen
You can see the devastationDon't you see
The human misery
The endless human misery
We believe
In human dignity
Each man must keep his dignityWhat we don't want to see
This inhumanity
We are sitting comfortably
And safe in home security
No, we don't want to see

This inhumanityWhy do we have to see
Such inhumanity
Why do we have to see
Inhumanity
