

# Impossible Heart

## Paloma Faith

I fall in love too easily  
I know my heart doesn't think  
It just don't care for me  
And I know I drop it way too fast  
Into a swimming-pool I splash  
I don't come up for air until I'm drowned  
And I stop breathing in When will I ever learn instead?  
I just crash and burn  
I don't stop and think before  
I let myself go God damned impossible heart  
Won't save me  
I can't change it  
My oldest enemy  
An impossible love's my favorite  
I can't take it  
There's nothing left to give  
My impossible heart will kill me  
Before it cures me  
And I can't stop the pain  
Oh your impossible love's contagious  
And I can't shake it  
You make me go insane Oh baby now, I thought I'd learned from my past mistakes  
It seems your touch did its work  
It's time to admit  
And I know it just won't go away  
'Cause you got your claws that's sunk in me  
I can't control myself, I'm stuck  
'Til my heart's bleeding in When will I ever learn instead?  
I just crash and burn  
I don't stop and think before  
I let myself go God damned impossible heart  
Won't save me  
I can't change it  
My oldest enemy  
An impossible love's my favorite  
I can't take it  
There's nothing left to give  
My impossible heart will kill me  
Before it cures me

And I can't stop the pain  
Oh your impossible love's contagious  
And I can't shake it  
You make me go insane So if the sea separates us  
Time is against us  
Or you're unavailable  
Or if you don't like girls  
Just boys with the curve  
Then I probably want you  
I probably need you Just call out my name  
I know I hold your hand  
God damned impossible heart  
Won't save me  
I can't change it  
My oldest enemy  
An impossible love's my favorite  
I can't take it  
There's nothing left to give  
My impossible heart will kill me  
Before it cures me  
And I can't stop the pain  
Oh your impossible love's contagious  
And I can't shake it  
You make me go insane God damned impossible heart  
Won't save me  
I can't change it  
My oldest enemy  
An impossible love's my favorite  
I can't take it  
There's nothing left to give  
My impossible heart will kill me  
Before it cures me  
And I can't stop the pain  
Oh your impossible love's contagious  
And I can't shake it  
You make me go insane  
You make me go insane
