

I Wanna Live

Tesla

What I want and what I need
is everything that I'm supposed to be
I have my hopes, I've got my dreams
I had to fight for what is right for me And other things that I expect
I take them all and I have no regrets
Life's too short, there's no rain check
Just one shot at it is all you get I wanna live before I die
Don't want the world to pass me by
I wanna live, I wanna live before I die You tell me this, you tell me that
They wrote the rules but that ain't where it's at
They only dare to tell me lies
And do I listen? I don't even try
And life's an act, the world's a stage
I'm like an animal outta my cage
I'm runnin' wild, I'm runnin' free
Just one shot at it is all we need I wanna live before I die
Don't want the world to pass me by
There's so much more I wanna try
I wanna live I wanna live before I die
Don't want the world to pass me by
I wanna live, I wanna live before I die I can't wait around, I just can't waste my time
I don't care if you think that I'm outta my mind I wanna live before I die
Don't want the world to pass me by
There's so much more I wanna try
I wanna live
I wanna live before I die
Don't want the world to pass me by
I wanna live, I wanna live, I wanna live I wanna live before I die
Don't want the world to pass me by
I wanna live, I wanna live before I die
