

Mangled

Attica Blues

Demolition of bodies, smashed and broken
Piles of guts, moist and steaming
Tendons severing, brains are boiling
Unburied corpses in state of decay Rotten limbs start to ferment
Torso's torn in two
Skin ripped off to expose muscle tissue
Butchered for human stew Crawl into the cadaver head first
Eat your way through the guts
The purgent smell of decaying innards
Is enough to drive you nuts The spleen of the carcass is oozing from your mouth
As you chew on the piss filled kidney's
Suck the vomit through intestines
Leaving nothing but bones Violently cutting, seriously hacking
Sounds of death fill the air
Bones sticking out, ripped from sockets
Blood spurting everywhere Victim lying dead, neck but no head
Smearing remains on your own face
Violently cutting, seriously hacking
Sounds of death fill the air Blistering flesh, another death
Stiffened bones, morbid groans
Evil mind, brain oozing slime, feel the pain
Body weak brain contorting, fluid flowing from your organs Veins torn our mangled festering flesh
Quivering cadaver, ligaments stretched around your own neck
Drink the pus, mangled severed dick
Bloody bowels, the gutted corpse now lies hollow Feeding on feces, mangled amputated arms
Crushing legs, head is ripped right off
Your shoulders thrown in a pile, mangled limbs rearranged
Head on backwards, a humongous heap of twisting flesh
Sewn together, mangled, mangled His knife plunges in your cold battered body
Blood seeping through the jagged wounds he cuts
Unbearable pain, give into death
Your life slips away, perish in blood Menacing madman mutilating, destroying, disfiguring, dead you'll be
Crushing, cracking, killing you, annihilation, desecration
Born through modern day science man has made his last mistake
A creature so hideously horrible leaving nothing to waste Evil has a new face, a mangled horrible face
His views are those of death, nothing will stop his lust
Slicing victims left to decay, listening to their mortal cries
Inhuman, immortal, bestial, now he owns your soul Crawl into the cadaver head first, eat your way through the
guts

The pungent smell of decaying innards is enough to drive you nuts
The spleen of the carcass is oozing from your mouth
As you chew on the piss filled kidney's
Suck the vomit through intestines, leaving nothing but bones
Human converted to beast, the perfect killing
machine
Psychotic structure of brain tissue, murder his only memory
Dependant on death, crushing your head
I'm addicted to blood, chew the decay
The weakened man must die, tearing out his insides
Smashing all the bones, hear his tormenting groans
