Let It All Out

Signum A.D.

You say the words but there's something more
You wanna let go but you're still not sure
Don't keep what hurtin' you away from the light
I don't want anything between us tonight

[Chorus]
So let it all out
Say what you're feelin'
Let it all out
I'm here if you're cryin'
We'll find every answer if we can be free
Oh, so let it all out
Say everything to me
Say everything to me

Take all the honesty that silence can steal
Let's find each other in a love that's real
It breaks my heart to see you fight on your own
Oh, as long as I'm right here baby
You're not alone

[Chorus]

Let's pull the curtains down
Cause we're strong enough to see
How the words we don't say
Build a wall between you and me

So let it all out
Say what you're feelin'
Let it all out
I'm here if you're cryin'

[Chorus]

Oh when you're feeling tired, feeling tired
I'll be right there, right there
