I'm Through With Love

Lorez Alexandria

I put away your photograph
And turn out all the lights
But I can't seem to make myself forget
'Cause every time I close my eyes
And see your face again
I realize that's all that I have leftI'm through with love
I'm through with pain
Don't wanna feel that way again
'Cause if you're gone for good
I'll never be the sameI thought that what we had was real
But maybe I'm a fool
Who only sees the things he wants to see
'Cause it seems that when I need you most
I find myself alone and I know
That's not the way love's supposed to beI'm through with love
And sad goodbyes can't take the lows
Don't want those highs
This heart needs time to mend
I'm through with love, my friendWell, maybe someday
If the feeling comes again
I won't remember
How it hurt but until thenI'm through with love
I'm through with pain
Don't wanna feel that way again
'Cause if you're gone for good
I'll never be the sameI'm through with love
And sad goodbyes can't take the lows
Don't want those highs
This heart needs time to mend
'Cause if we've reached the end
Till I can feel again
I'm through with love, my friend
