Hell Below / Stars Above

Toadies

Never heard you say goodbye
Read your letter, made me cry
Saw you with another guy
Never one to waste your time
You're in love, you're in love
Hell below me, stars above
Saw you with that other man
Feathered hair and tall and tan
Treat him like I know you can
Stroke his cheek and hold his hand

You're in love, you're in love
Hell below me, stars above
Stars above are shining down
Nothing ever gonna hurt me now
And I slip away happy as a clam
Stars above are smiling now
Ever since you put me down
And I close my eyes, and I can't see your face
Stars above are shining down
