

Autonomy

The Offspring

It's a thing that's worth having
Yes, I would
Buys you your life sir
If it could I, I want you
Autonomy It leaves us all wondering
And it should
This awkward something
For the good I, I want you
Autonomy I, I want you
Autonomy It leaves us all wondering
And it should
This awkward something
For the good I, I want you
Autonomy Yes, I, I want you
Autonomy
